

Designed to improve working with cartons

Corner clip EF-1264

*For improvement of
packing/unpacking work efficiency*

■ To fix flaps of carton open

Just by using two corner clips, you can fix troublesome flaps of cartons with ease.

For various purpose

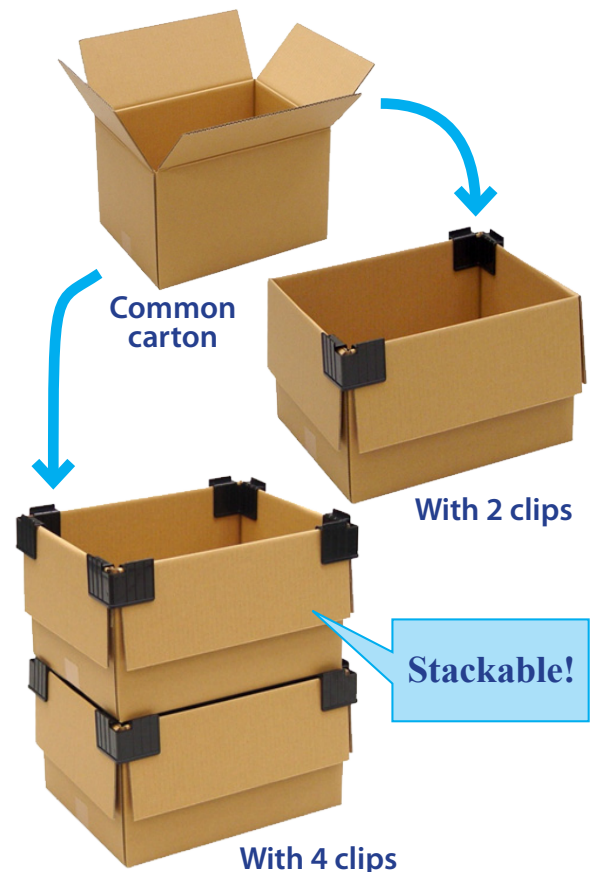

- Keep carton open during packing operations to improve visibility and save time
- Use clips instead of cutting flaps off carton for parts presentation on assembly, etc
- Reuse cartons and reduce cost

■ To stack cartons up

By putting four corner clips on all corners of carton, it enables cartons to be stacked.

Note:

Be sure to check strength of your cartons.
Use only same size cartons for stacking.

Part name	Corner clip
Part number	EF-1264
Material	PS (Polystyrene)
